

shall be made to the State Board of Health for a permit under the provisions of this Section, it shall be the duty of the Board to examine the application without delay, and, as soon as possible thereafter, to issue said permit, disapprove the application, or state the conditions under which said permit will be granted.

1914, ch. 810, sec. 9.

277. The State, or any County, legally constituted public water, sewerage or sanitary district, or any municipality, upon which an order of the State Board of Health is served, shall, through its proper official or department, proceed to raise such funds as may be necessary to comply with such order within the time specified. When approved by the Governor and Attorney-General, any County, legally constituted public water, sewerage or sanitary district, or municipality may raise such funds, or any part of them, by issuing bonds, stocks or notes without prior legislative enactment; and the question of issuance of such bonds, stocks or notes shall not be required to be submitted to a vote of the people. The money made available by bonds, stocks or notes so issued shall constitute a sanitary fund, and shall be used for no other purpose than for carrying out the order or orders of the State Board of Health. At no time shall the total outstanding issue of such bonds, stocks or notes exceed two per cent. of the total value of all property within the limits of such County, district or municipality, as listed and assessed for taxation. The amount of bond, stock or note issue as allowed by this Section may be in addition to the total indebtedness otherwise permitted by law. No public moneys shall be expended by the State, any County, legally constituted public water, sewerage or sanitary district for any of the purposes enumerated within this subtitle, unless such expenditure and the amount thereof has been approved by the State Board of Health.

1914, ch. 810, sec. 10.

278. Before land platted for sub-division is put upon the market by any corporation, company, persons or person, and before any permanent building is erected thereon, there shall be filed with the State Board of Health a plat of such sub-division, together with a statement as to the methods proposed for supplying the sub-division with water and sewerage service, and such other information as may be required by the Board. The State Board of Health may thereupon order the preparation and submission of such plans and specifications, within a specified time, as it may deem necessary for furnishing adequate water supply and sewerage service to said sub-division; and it may at any time order the installation, within a specified period in accordance with the plans presented or approved revisions thereof, of the whole or any part of the water supply and sewerage systems for said sub-division as the public health may, in its judgment, require.
